

What is a Welder?

As a team member of the manufacturing shop, a welder works to build helical screw piles by welding steel helixes to pipe and performing other general welding for shop repairs and/or maintenance. Coordinates with manufacturing staff and other trades for the purpose of completing projects/work orders efficiently and effectively. Assists other team members as required for the purpose of supporting them in the completion of their work activities. The job duties include:

- Read and interpret blueprints or welding process specifications
- Perform light maintenance on welding equipment such as replacing contact tips and nozzles, replacing liners, replacing drive rolls on wire feeders and exchanging shielding gas bottles
- Set up, adjust and fine-tune voltage and wire feed settings to achieve desired quality results
- Select and transport metal stock to work area manually and/or using overhead crane
- Operate semi-automatic welding equipment to fuse metal segments using GMAW welding process
- Complete required welding of steel rings and steel plate helixes to steel pipe in the fabrication of helical screw piles
- Ensure welds conform to specifications as outlined in CWB procedures
- Stamp all welded product with assigned marking tool
- Operate semi-automatic flame-cutting equipment; operate metal shaping machines such as bending machines
- Repair worn parts of metal products by welding extra layers
- Train or supervise welding apprentices
- Comply with company safe work practices and procedures

Do you have the following requirements?

- Alberta Class 5 (or higher) driver's license, driving abstract and your own vehicle; no public transportation available
- Journeyman Welder Certification from a recognized provincial training authority, Red Seal preferred
- 4+ years of practical welding experience; GMAW, pipe welding in a manufacturing environment preferred
- Ability to satisfactorily complete all required SureHire pre-employment testing, including but not limited to a medical questionnaire and a 50 lbs. back assessment
