

What is a Swamper?

The role of a Swamper is to assist the Piling Rig Operators in the completion of a pile installation project from beginning to end, ensuring all customer requirements are met. The Swamper is to assist with all types of pile installations including helical screw piles, driven piles and concrete piles. The Swamper reports directly to the Operator to ensure standards of safety and quality are consistently met and exceeded. The job duties include:

- Operating skid steers to unload, organize and layout piles, tools and other materials
- Assisting the operator with the installation of piles to ensure pile locations
- Working closely with the Operator to rig, hoist and attach various attachments including augers and hydraulic drive tools
- Assisting with any required drilling, concrete pumping and installation of rebar as required for concrete piling operations
- Operating company vehicles and equipment according to operating manuals and legal requirements
- Completing pre and post trip inspections and correcting and reporting all defects immediately
- Cleaning, lubricating, fueling and caring for company equipment and vehicles
- Maintaining a legal driver's logbook and submitting documentation bi-weekly
- Participating in ongoing hazard assessments and daily toolbox meetings
- Completing general site housekeeping duties
- Adhering to all company policies and procedures in relation to both safety and quality

Do you have the following requirements?

- Alberta Class 5 driver's license, clean driving abstract that contains no more than 5 demerit points
- Ability to satisfactorily complete all required SureHire pre-employment testing, including but not limited to, drug and alcohol testing, a medical questionnaire and a 50 lbs. back assessment
- Mechanical aptitude; prior equipment operating experience an asset
- Ability to travel away from home for extended periods of time
- Standard First Aid, Level "C" CPR; CSTS-09; H2S Alive
